

## SUMMER TREATMENT SPOTLIGHT —

# Stop the sweat. Own the summer.

A quick, FDA-approved Botox treatment that turns off underarm sweat at the source — so heat, workouts, and white shirts never slow you down.

## — THE ESSENTIALS

01

## What it treats

Primary axillary hyperhidrosis — excessive underarm sweating unrelated to heat, anxiety, or exercise.

02

## How long it takes

A 20–30 minute in-office visit. Zero downtime — return to your day immediately.

03

## How long it lasts

Results last 4–6 months on average. Most patients treat once at the start of summer.

04

## FDA approved

FDA-approved since 2004 for axillary hyperhidrosis. Well-studied and trusted globally.

## — HOW IT WORKS

1

Map & clean the underarm area

2

Tiny injections into the dermis

3

Botox quiets nerve signals to sweat glands

4

Visible results within 1–2 weeks
